

Plan and Prepare

For optimal energy efficiency, we recommend you have your heater serviced and tuned up every year. If you have not already done so, please call to schedule your cleanout.

- Clean or replace filters on furnaces monthly or as needed.
Clean warm air registers, baseboards and radiators, making sure they are not blocked by furniture, carpeting or drapes.
Installing a programmable thermostat can help you regulate temperature automatically.
Check insulation, windows and doors.
Protect your fuel oil pricing with our Cap Protection Program.
